UNIK LINE LINEA UNIK LIGNE UNIK

The ITR UNIK line has been designed for all applications where high penetration, impact resistance and increased wear life, are essential.

6 UNIQUE FEATURES:

- High productivity: an innovative and modern self-sharpening design ensures excellent performance
- Reinforced pocket structure
- Increased side pin protection
- High Impact resistance
- Selected ITR steel composition
- Extended wear life

La linea UNIK ITR è stata progettata per tutte quelle applicazioni in cui l'elevata penetrazione del terreno, la resistenza all'impatto, nonché un incremento della vita del dente sono essenziali.

6 CARATTERISTICHE UNICHE

- Alta produttività: il profilo innovativo ed autoaffilante assicura elevate performance
- Struttura della tasca rinforzata
- Aumento di materiale nella zona di inserimento perno
- Alta resistenza all'impatto
- Selezionata composizione dell'acciaio
- Aumento della vita del dente

La ligne de DENTS ITR UNIK a été conçu pour toutes les applications surtout pour la pénétration élevée, elles sont très résistantes à l'impact ainsi qu'une plus longue augmentation de vie d'usure grâce aux renforts latérales.

6 CARACTÉRISTIQUES UNIQUES:

- Haute productivité: une forme innovante, moderne et une structure renforcée, l'auto-affûtage garantie d'excellentes performances dans tout type de sol
- Protection latérale accrue
- Très Haute Résistance à l'impact
- Sélection ITR acier composition
- Étendue durée de vie importante
